LIPTON SURPRISED HIS CHALLENGE FOR CUP IS REJECTED

Says He Proposed 75-Foot Boat in True Sporting Spirit and Wanted No Favors.

IN LINE WITH GIFT DEED.

Reliance, Only Craft Here, That Is Larger Than the Size He Stipulated.

LONDON. March 12.—Sir Thomas
Lipton, the British challenger for the
America's Cup, expressed the greatest
surprise to-day when informed of the
decision of the New York Yacht Club
deciling his challenge because it did
not comply with the conditions of the
deed of gift governing contests for the
Cup.

Neither Sir Thomas nor the Royal
Ulster Yacht Club had at the time been
officially notified of the rejection of the
challenge and Sir Thomas said he had
not had time to consider whether he
would amend the conditions of his challenge so as to meet the objections of
the New York yachtsmen. He expects, however, to confer with his designer, Charles E. Nicholson of Gosport, England, on the subject immedia
ately.

the right of the New York Yacht Club to decline his challenge because of the stipulation that the defending yacht must be the same size as the challenger.

Nevertheless he is greatly disappointed, as he fully expected that the challenger Track fast. as he fully expected that the challenge would be accepted. He said; CONFORMED WITH ALL THE

CONFORMED WITH ALL THE

CONDITIONS.

"It is the duty of the challenger for the America's Cup to state the size of the boat with which he intends to race, as well as name the days on which the races are to take place. In this I conformed entirely with the conditions of the deed of gift.

"The size of 75 feet on the water line, which I stipulated, is larger than that of any cutter type on this side of the Atlantic and as big as any in America, with the exception of the Re-liance. The race would have been a good one, while there would have been no race at all if the defender were a 30-foot yach racing against my 75-footer. I therefore suggested that both should be 75 feet on the water line, "I wanted a fair sporting offer, according to the conditions of the conditions are recording to the conditions are recording to the conditions of the Recording to the conditions are recording to the conditions of the Recording to the conditions of the Recording to the conditions are recording to the conditions of the Recording to the conditions are recording to the conditions of the Recording to the c

"I wanted no favors and made what I considered a fair sporting offer, according to the conditions governing the America's Cup.

"When I challenged six years ago under the universal rule which governs all yacht racing in America my challenge was declined because it did not comply with the conditions of the deed "Approntice allowance."

"Approntice allowance." of gift, and legally the New York Yacht Club had the right to do so.
"Now, when I challenge according to

ed of gift, my challenge is declined because I will not allow a ninetyfoot yacht to race against my seventyhave favored the defender. After tuning up the challenger here I should have had to put in ocean rig and then on reaching America should have had to hange it to racing rig again. All this s to the advantage of the defender. HE THOUGHT NEW YORKERS

WOULD LIKE ANOTHER RACE. "It has surprised me very much that the New York Yacht Club has rejected my challenge and the more so because Americans always have given me every consideration.

"Although there has been a crop of rumors every year in regard to chal-lenges for the America's Cup, since the last race ten years ago nobody has come forward and I naturally thought that New York yachtsmen would like to have another contest, particularly when the challenge was made under the

America's Cup rules."
It is understood that Charles C. Allem, the owner of the yacht Istria, who has been racing for a few years. is a prospective challenger for the America's Cup. Charles E. Nicholson of Gosport built Istria for him, and during the past year he made some attempt to organize a syndicate to build a challenger, but it was under-stood that the matter had fallen through. Mr. Allom, it is believed, is at present in the United States.

OXFORD WINNER BY SCANT LENGTH OVER CAMBRIDGE

Losing Crew Led Up to a Quarter of a Mile From

the Finish.

LONDON, March th.-Oxford won the seventieth annual "battle of the blues," the boat race between Oxford and Cambridge Universities, on the Thames River to-day by a quarter of a length. It was the most spectacular race in the bistory of Oxford-Cambridge rivalry. Cambridge won the toss and was lead. This lead Cambridge kept until FIRST RACE-Passe \$300; four-year-olds and, the last stage and amid the wildest

opening the stock market became rather strong on fairly good buying orders. but soon settled into a rut after the buying power disappeared.

In the late afternoon prices advanced

rather sharply, Union Pacific and Readng being the leaders. The closing was quiet and strong.

Oxonian, had a place in the umpire's boat, and he led the frantic bursts of the almost dramatic finish.

The official time of the race was 20 minutes and 31 seconds.

The record for the course is 18 minutes and 22 seconds, established in 1911. Cambridge came nearer winning to-day than at any time since 126, when Cambridge won the last contest.

The Oxford crew was as usual favorite owing to its greater opportunities for practice on the Thames, whereas the Cambridge crew in its preliminary training is restricted to the little river Cam.

Great precautions were taken to guard against any outrage by militant suffragetess which might mar the suffragetess which the racing crews passed. All boats along the
